HIKING TRAILS

The TRAILHEAD and parking for both trails is located at the Deep Well picnic area of Highway 100. Follow the lead trail and the Warner Woods Trail begins 200 yards from the trailhead and the Mossy Ridge Trail begins 300 yards from the trailhead.

WARNER WOODS TRAIL: a 2-1/2-mile loop, blazed WHITE, and rated MODERATE. The entire trail is in the heavily wooded interior of the Park, and about a third of the trail is in one of the Park's most secluded regions. Also, hikers can experience a breathtaking view from the cleared knob of Luke Lea Heights at an elevation of 922 feet by walking down a paved road that the trail crosses (see map).

MOSSY RIDGE TRAIL: a 4-1/2-mile loop, blazed RED, and rated MODERATE. The trail winds up and down wooded hills and hollows, crosses several springs and open meadows and offers users a unique opportunity to see the wide variety of plants and animals that may be found in the Park. Two especially nice features are a short spur trail that leads to a "quiet point" (see map) and a steep, rocky ridge near Scott Hollow (also on map) with trailsides carpeted in moss; both sections have resting benches.

THE CONNECTOR TRAIL

CANE CONNECTOR TRAIL: a 1-mile, one-way, with a CANDYSTRIPE blaze and rated EASY. Opened in 1997, the trail runs between the Mossy Ridge and Hungry Hawk trails thus connecting the entire Warner Parks trail system. Following the old Natchez Trace hikers should exercise CAUTION when crossing Old Hickory Boulevard.
